

DC Plex™

RF detection system

The DC Plex provides all encompassing protection for those who want maximum performance and transparency in their stores. The scratch-resistance acrylic panel with multi-wire construction offers the most refined design for any retail décor.

This generation of RF electronics is based on Dialoc ID's 30 years of experience and is known for its excellent performance in any environment.

The DC feature software makes management information available & remote maintenance possible, only in combination with the USB/Ethernet tool.

Specifications

Detection:

- Up to 2.00 meter for hard tags
- Up to 1.60 meter for 5x5 sticker tags
- Up to 1.40 meter for 4x4 sticker tags

Hardware accessoires:

- USB to Can bridge (standard USB and Ethernet cable included for configuration on PC or laptop)
- USB / Ethernet to Can bridge (standard USB and Ethernet cable included, for configuration on PC, laptop, through internet or internal network)
- People counter
- CSU / DC
- Removable antenna base

RF software features consist of:

- slaving option
- buzzer time
- buzzer tune
- relay output
- lamp time
- lamp intensity
- lamp frequency
- alarm counters readable through network
- people counters readable through network
- restart counter readable through network
- log file readable through network

Dimensions:

Antenna: 330 x 15 x 1612 mm. (w x d x h)

Base: 358 x 100 x 12 mm. (w x d x h)

Material:

Panel: Scratch resistance clear acrylic

Base: Stainless steel

Weight: 12,50 kg.
